## SKILLS TRAINING PROGRAM

An opportunity to become

**MASTER TRAINERS** for

- Hospital Emergency Care and Life Support (HCLS)
- Trauma Care and Life Support (TCLS)
- Obstetric Emergency Care and Life Support (OCLS)

## OVERVIEW

Emergency patient care is continuously evolving. This necessitates a training and development program that enables every staff member in the hospital, including doctors and nurses, to be effective independently and as a team member in such a high-demand system.

This 3-day simulation based training program on HCLS, TCLS and OCLS is designed to update and train the hospital staff with the latest evidence-based knowledge and skills that are necessary to deal with emergencies that can occur in a hospital. The highly interactive course focuses on safe, consistent, and coordinated practices impacting the overall quality of emergency healthcare services provided in the hospital.

## OBJECTIVES

- ▶ To promote uniform and safe evidence-based emergency practices, effective and clear communication, team coordination, updated knowledge, and skills concerning emergencies as the pathway to attain this goal. Successful trained candidates will be enrolled as Master Trainers for CAHO - JeevaRaksha Programs
- ▶ To develop a high-performance team that can deal with emergencies swiftly and satisfyingly, even in low - resource settings.

## HIGHLIGHTS

A 3-days training and development program assisting doctors, nurses, and other hospital staff in providing effective urgent care in hospital settings.
