

ACE A Quality Initiative for Central Sterile Service Departments (CSSD)

Technical Guidance Collaborator

The pivotal role of the Central Sterile Supply Department (CSSD) is to provide consistent disinfection and sterilization services. This can be a monumental task yet a vital link. To help Healthcare Organizations, CAHO is proud to present Awareness-Compliance-Excellence (ACE), a Quality Initiative which aims to enhance the knowledge and capabilities of the staff and upgrade the practices in the CSSD. The primary objective of ACE program is to facilitate capacity building amongst CSSD professionals, share best practices, and provide benchmarking, while promoting and continuously improving the quality and safety of healthcare services as per the latest Standards and Guidelines. ACE programs helps in:

- Knowledge enhancement through ACE Basic and ACE Advanced courses.
- Certification for the CSSD professionals by CAHO after successful completion of the courses.
- Guidance and Consultation by the Experts to the CSSD team to promote adherence to the recommended Standards and Guidelines.
- Auditing & Gap analysis of the CSSD Facility by the CAHO team.
- Participating Hospitals Upon fulfilling 80% compliance, receives an ACE certification from CAHO for the CSSD facility with a validity for 2 years. The top winners are invited to participate at CAHOCON (Annual Conference of CAHO).

Awareness

Support standardization, adoption of best practices in accordance with the international guidelines

Compliance

Measure compliance, gap analysis and process improvements by regular audits.

Excellence

Reward and recognize Excellence
