## Flexible Endoscope Reprocessing

Venue: **Online**

Date: **16th Dec, 2023** | Time: **1pm - 5pm**

Healthcare facilities should have a reliable, high-quality system for endoscope reprocessing which minimizes infection risks. This workshop is aimed at providing the knowledge and know-how of reprocessing flexible endoscopes.

### Highlights

- Anatomy of flexible endoscopes.
- Recent updates and infection prevention guidelines.
- Recommended guidelines in reprocessing.
- Manual vs. automated endoscopy reprocessing.
- Chemistry of disinfectants and MSDS.
- Understanding the user manual and the instructions for use.
- Quality Assurance and Audits.

### Who should attend

- Medical and Surgical Gastroenterologists
- Pulmonologists,
- Endoscope Nurses,
- Endoscope Technicians,
- Quality Managers,
- Patient Safety and
- Clinical Safety Officers.
