

**DIGITAL
TRANSFORMATION
IS NOT ABOUT
TECHNOLOGY
AT ALL.
ITS ABOUT PEOPLE**

7th Edition

CAHOCON 2023

A close-up photograph of a person in light blue medical scrubs holding a tablet computer. The person's hands are visible, with the right hand touching the screen. The background is a plain, light-colored wall.

Nursing 2.0

By

Megha Chitkara

Medicover Hospitals

World's Viewpoint

Nurse Viewpoint

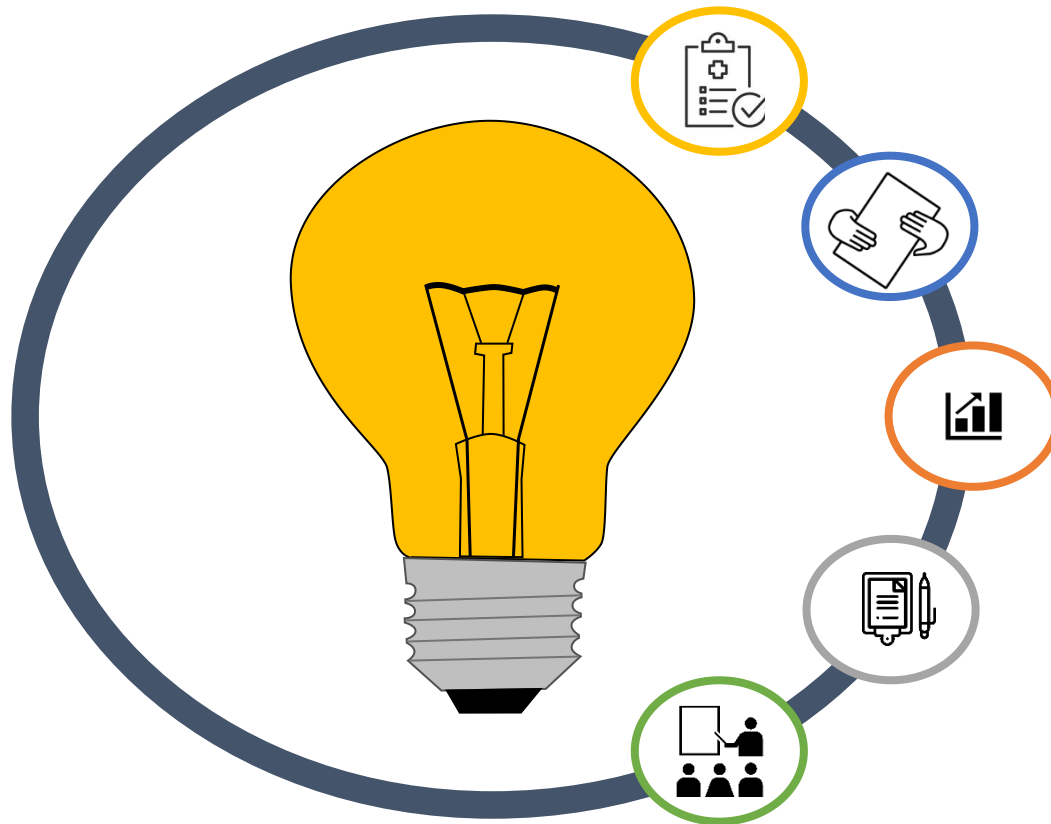

Bound by **PAPERWORK**,
SHORT ON hands, sleep and energy,
Nurses are rarely short on **CARING**.

How Technology can Empower Nursing to drive Excellence

Imagine...

01 No case sheets

All data is digitized- 100% EMR

02 No Handover

Allocate Nurse on next shift, validate handover and takeover

03 No activity charts, Indents, service updates

Data automatically flows from Doctor Prescription to Indent to Supplies

04 No Consents

Digitized Consents with AV recording option.

05 No classroom Training

AV training modules against each section, each work process defined in software

TechPro in Healthcare

- 100% EMR (paperless)
- 100% patient allocation on app with validation for handover/takeover
- 100% data flow from Doctor Notes and Orders to Supply chain
