Bridging the Gap: Patient-Centered Healthcare with PFPF

- *Mr Som Mittal, Prof Nadira Chaturvedi*

The Patients for Patient Safety Foundation (PFPF) is leading an initiative to promote patient safety and patient-centered care. This initiative aims to bridge the gap in healthcare, reduce medical errors, and create a safer, more patient-centered healthcare environment, ultimately improving clinical outcomes and satisfaction for all stakeholders.

World Patient Safety Day 2023 report: CAHO Celebrations and Initiatives

- *Dr Vijay Agarwal, Dr Lallu Joseph*

CAHO and P4PSI's celebration of World Patient Safety Day 2023 was a significant movement in promoting patient engagement and safety. They conducted webinars, competitions, and launched guidelines for Patient Advisory Councils (PAC) and Patient Reported Experience Measures (PREMs). This reflects their commitment to enhancing patient-centric care in healthcare.

Enhancing Patient Engagement through Patient Advisory Councils

- *Dr Vijay Agarwal, Dr Lallu Joseph, Ms Gracy Mathai, Mr Som Mittal, Prof Nadira Chaturvedi, Mr Ashok K Reddy*

Engaging patients through Patient Advisory Councils (PACs) is crucial for improving healthcare. PACs provide a platform for patients to share experiences, fostering trust, valuable feedback, and collaboration between patients and healthcare providers. CAHO and PFPF promote patient engagement and offer support through education, resources, and collaboration, emphasizing the role of PACs in enhancing patient safety and care quality.

Why do we need Patient-Reported Experience Measures (PREMs)?

- *Dr Vijay Agarwal, Dr Lallu Joseph, Dr Malathi A, Dr Rahul Deshmukh, Dr Neesha Aijit Nair*

Patient-reported experience measures (PREMs) are crucial for evaluating patient-centered care and ensuring the implementation of patient safety policies. They provide direct feedback from patients, helping identify areas for improvement, assess the effectiveness of corrective actions, and enhance communication with patients and families. PREMs offer valuable insights and contribute to proactive quality improvement efforts in healthcare.
