Need for Infection Control & Safety For Indian Oral Health Professionals

When a patient visits a dental clinic, they are not assured of a safe visit, similarly, the employee of the clinic is not assured of a safe work environment. ToothCE LLC, a US based Dental Safety Education Company, and the Consortium of Accredited Healthcare Organizations (CAHO) together have launched an in depth “Dental Safety Training & Continuing Education Program” jointly for India.

Highlights

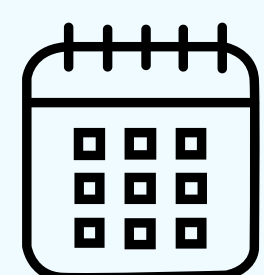

Here we will provide the What’s, the Why’s and the Translation of Knowledge in “Dental Infection Control & Occupational Safety” into daily clinical practice, for the Safety of Patients and Safety of Employees.

What’s | Why’s | Translation of Knowledge
