PRESENT HEALTHCARE SCENARIO

What ails our healthcare environment

Equity	Not everyone gets even the basic healthcare
Accessibility	Not accessible due to distance, specialisation money and resources
Preventive care	We are more focused on therapeutic care rather than preventive care
Manpower Resources	We lack resources where they are needed
Innovation in Delivery	Singularly lacking.

JUST REMINDING THE PEOPLE

5 best Institutions in Education	IITs / IIMs / AIIMS / NID/IIIT
Biggest Innovator in applied science	ISRO / DRDO/DMRL/NMDC
Trendsetter delivery of Mega Projects	RAILWAYS/NHAI
Hottest technology in Fintech	UPI / BHIM/AADHAR
Colossal delivery success	COVID Vaccination/O2 Plant

All derive their primary funding from Govt

LETS LOOK AT SIX MAJOR ACHIEVEMENTS IN HEALTHCARE
