Venue: SP Grand Days, Trivandrum

Empowering Private Healthcare
Since 1973

49th Annual Meeting of QPMPA

12 - 13 Aug 2023, SP Grand Days, Trivandrum

ABOUT QPMPA

As healthcare continues to undergo significant changes, it is becoming increasingly important for private hospital owners to stay up-to-date with the latest trends and innovations in the industry. This is where QPCON, the annual conference of QPMPA comes in. Attending this conference can be one of the most valuable investments that hospital owners make in the future of their businesses.

Firstly, the annual conference provides an excellent opportunity for hospital owners to network with other experts in the field. By attending this event, they can meet and exchange ideas with other industry leaders, discussing best practices and the latest technological advancements. This leads to new partnerships, collaborations, and strategic alliances that can ultimately help to improve the quality of care being provided and enhance the operational efficiency of their hospital.

Secondly, the conference provides a unique platform for hospital owners to learn about the latest trends, policies, and regulations impacting the healthcare industry. Experienced speakers from various sectors will make presentations that cover topics ranging from governance and leadership, healthcare technology, healthcare infrastructure modernization, and many more. The conference will also outline innovative business models, cutting-edge treatment protocols and set the stage for cross-sector collaboration.

Thirdly, attending the annual conference sends a message that the hospital owners are committed to the growth of their businesses and the overall wellbeing of their patients and communities. It demonstrates that they are willing to invest their time, resources and energy to learn and explore how they can make an even greater impact in their respective fields.

Attending QPCON 2023 will provide a perfect opportunity for hospital owners to meet other industry leaders, gather information about the latest trends and best practices, and to demonstrate their commitment to the future of the healthcare industry. The knowledge acquired and insights gleaned from the event could ultimately lead to sustainable successes in the hospital sector.

ABOUT US

A not-for-profit body representing healthcare institutions, diagnostic centres and quality professionals with an overarching aim to promote patient safety through fire safety training for hospital staff, quality through communication skills for the healthcare professional and accreditation in healthcare ecosystem

We believe that accreditation is the beginning of a quality journey. Our aim is to systematically infuse & spread the message of quality in healthcare at the grassroot level so as to develop a culture of safety in healthcare organizations. We as an association of healthcare institutions, diagnostics centres and individuals pool our resources for achieving the common goals of promoting quality, patient safety and accreditation. We are the engine to drive continuous quality improvement and to pursue the journey beyond accreditation in collaboration with all stakeholders.
